

Lionel Roche  
Short bio

*Lionel Roche is Assistant Professor in the Department of Physical Activity Sciences at UQAM. He specializes in the use of 360° video and 360° hypervideo (augmented 360° video) in a pedagogical context of initial teacher education and sports training. He pioneered research into the use of 360° video in the field of teacher education and designed the first training platform for PE teachers training based on 360° video (Form@tion360) and edit the first French-language book on the use of 360° video in education and training.*
